MasTec Management to Present at the UBS Global Industrials and Transportation Conference 2026

November 25, 2026

CORAL GABLES, Fla.--(BUSINESS WIRE)--Nov. 25, 2026-- MasTec, Inc. (NYSE: MTZ) today announced that its senior management will be participating in a fireside chat at the UBS Global Industrials and Transportation Conference 2026 on Tuesday, December 1st at approximately 2:40 p.m. Eastern Time.

The webcast of this event can be accessed through the Investors tab of MasTec's website at www.mastec.com. Interested parties should check this website for any schedule updates or time changes. The presentation will also be available for replay on the MasTec Investor Relations website for approximately 30 days.

Please note that during this event we may make certain statements that are forward-looking, such as statements regarding MasTec's future results, plans and anticipated trends in the industries where we operate. These forward-looking statements are MasTec's expectations on the day of the webcast, and MasTec does not undertake to update these expectations based on subsequent events or knowledge. Various risks, uncertainties and assumptions are detailed in our most recent financial press releases and filings with the Securities and Exchange Commission. Should one or more of these risks or uncertainties materialize, or should any of our underlying assumptions prove incorrect, actual results may differ significantly from results expressed or implied in these communications.

About MasTec

MasTec, Inc. is a leading North American infrastructure engineering and construction company focused primarily on engineering, building, installation, maintenance and upgrade of communications, energy and utility and other infrastructure. MasTec primarily operates under four business segments including Communications, serving both wireless and wireline/fiber infrastructure; Power Delivery, serving primarily utility customers in transmission and distribution markets and large load electrical markets; Pipeline Infrastructure serving energy and other customers with installation and maintenance services primarily for natural gas pipeline and distribution infrastructure; and Clean Energy and Infrastructure, providing renewable energy engineering and construction services, as well as for heavy civil and other industrial infrastructure markets.
