Safe Harbor Statement and Non-GAAP Financial Measures *Infrastructure that Delivers*

Safe Harbor Statement

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act. Forward-looking statements include, but are not limited to, statements relating to expectations regarding the future financial and operational performance of MasTec; expectations regarding MasTec's business or financial outlook; expectations regarding MasTec's plans, strategies and opportunities; expectations regarding opportunities, technological developments, competitive positioning, future economic conditions and other trends in particular markets or industries; the impact of inflation on MasTec's costs and the ability to recover increased costs, as well as other statements reflecting expectations, intentions, assumptions or beliefs about future events and other statements that do not relate strictly to historical or current facts. These statements are based on currently available operating, financial, economic and other information, and are subject to a number of significant risks and uncertainties. For additional information concerning some of the risks, uncertainties, assumptions and other factors that could affect our forward-looking statements, please refer to our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and other filings with the Securities and Exchange Commission ("SEC"), as well as our press releases, which are available on our website. We believe these forward-looking statements are reasonable; however, you should not place undue reliance on any forward-looking statements, which are based on current expectations. Furthermore, forward-looking statements speak only as of the date they are made. If any of these risks or uncertainties materialize, or if any of our underlying assumptions are incorrect, our actual results may differ significantly from the results that we express in, or imply by, any of our forward-looking statements. We do not undertake any obligation to publicly update or revise these forward-looking statements after the date of this presentation to reflect future events or circumstances, except as required by applicable law. We qualify any and all of our forward-looking statements by these cautionary factors.

Non-GAAP Financial Measures

Certain information may be provided in this presentation that includes financial measurements that are not required by, or presented in accordance with, generally accepted accounting principles (GAAP). Because non-U.S. GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-U.S. GAAP financial measures having the same or similar names. These financial measures should not be considered in isolation from, as substitutes for, or alternative measures of, reported net income or diluted earnings per share, and should be viewed in conjunction with the most comparable U.S. GAAP financial measures and the provided reconciliations thereto. We believe these non-U.S. GAAP financial measures, when viewed together with our U.S. GAAP results and related reconciliations, provide a more complete understanding of our business. We strongly encourage investors to review our consolidated financial statements and publicly filed reports in their entirety and not rely on any single financial measure. In addition, please refer to the reconciliation tables included in the Appendix and in the Company's SEC filings and press releases.

Q2 2026 Summary

Revenue	- Revenue \$4.4B, +23% YoY (+2% vs guidance) - Double digit growth in CE&I, Power Delivery, and Pipeline Infrastructure
18-Month Backlog	- Record backlog \$21.4B, +30% YoY, +5% sequentially (1.2x book-to-bill) - YoY growth rate led by 58% increase in CE&I
Adjusted EBITDA	- Adjusted EBITDA \$384M, +40% YoY (+1% vs guidance) - Strong growth in Pipeline Infrastructure, CE&I and Power Delivery
Adjusted EPS	Adjusted Diluted EPS \$2.22 vs \$1.49 in prior year (+\$0.02 vs guidance), driven by higher operating earnings

Q2 2026 Backlog¹

18-Month Backlog (\$B)

- Record total backlog of \$21.4B increased 5%, or \$1.1B sequentially; YoY growth of \$4.9B or 30%
- Clean Energy and Infrastructure backlog increased \$0.5B sequentially and ~\$2.9B YoY to \$7.8B, a new record including strong backlog additions in both renewables and infrastructure
- Power Delivery backlog increased to another record level of ~\$6.3B, and expect continued strong award activity, expanding scope on existing projects and increasing customer interest in larger, more integrated project delivery models
- Backlog provides excellent visibility entering the second half of 2026 and reinforces our confidence in the medium-term outlook for the business

Miscellaneous Definitions¹

- **Backlog** - Backlog represents the amount of revenue we expect to realize over the next 18 months from future work on uncompleted construction contracts, including new contracts under which work has not begun, as well as revenue from change orders and renewal options. Our estimated backlog also includes amounts under master service and other service agreements and our proportionate share of estimated revenue from proportionately consolidated non-controlled contractual joint ventures.
- **DSO** - Days sales outstanding is calculated as total accounts receivable, net of allowance, less contract liabilities, divided by average daily revenue for the most recently completed quarter as of the balance sheet date. Total accounts receivable consists of contract billings, unbilled receivables and retainage, net of allowance.
- **EBITDA** - is defined as earnings before interest, taxes, depreciation and amortization.
- **Leverage** - is defined as total debt, net of cash and deferred financing costs, divided by trailing twelve-month adjusted EBITDA.
- **Liquidity** - is defined as availability under the credit facility plus cash.

Adjusted net income, adjusted net income attributable to MasTec, Inc., adjusted diluted earnings per share, leverage, EBITDA and adjusted EBITDA and adjusted EBITDA margin, which are all non-GAAP measures, exclude certain items that are detailed and reconciled to the most comparable GAAP-reported measures in the Company's SEC filings, this appendix and press releases.

¹ See 10-Q for additional details.
