For Immediate Release**MasTec Announces Strong First Quarter Revenue and Earnings**

- **Record First Quarter Revenue—an Increase of 24%, with 19% Organic, Non-acquisition Growth**
- **Continuing Operations Adjusted EBITDA of \$79 Million—an Increase of 61%**
- **Continuing Operations Adjusted EBITDA Margin of 8.6%—a 190 Basis Points Improvement**
- **Continuing Operations Adjusted Diluted EPS of \$0.27 versus \$0.14 Last Year—an Increase of 93%**
- **2013 Continuing Operations Adjusted EBITDA Now Forecast at \$425 Million**

Coral Gables, FL (May 2, 2013) — MasTec, Inc. (NYSE: MTZ) today announced 2013 first quarter financial results with better-than-expected revenue and earnings. In addition, the Company's first quarter revenue was a record level.

During the first quarter of 2013, MasTec upsized and completed a public offering for \$400 million of 4.875% senior notes, due 2023. The proceeds were used to repurchase and redeem its \$150 million of 7.625% senior notes, due 2017, repay the outstanding loan balance under MasTec's senior credit facility and for future general corporate purposes. Given the increased size of the senior notes offering, the Company will carry higher debt levels over the rest of the year and the incremental funds received from the offering may not be fully utilized in 2013. The Company's earnings guidance includes additional interest costs of approximately \$0.04 to \$0.05 per share resulting from the senior notes offering.

The Company's 2013 first quarter results include a loss on extinguishment of debt associated with the retirement of the old senior notes which was \$5.6 million pre-tax, \$3.4 million after-tax, or \$0.04 per share. This debt extinguishment loss was specifically excluded from the Company's prior earnings guidance and is excluded from continuing operations adjusted earnings and EBITDA, earnings before interest, taxes, depreciation and amortization, non-GAAP measures, discussed below. A reconciliation to GAAP measures is attached.

Revenue for the 2013 first quarter was \$919 million compared to \$738 million for the first quarter of 2012, an increase of 24%. The first quarter organic, or non-acquisition, revenue growth rate was 19% and was led by growth in oil and gas pipeline and facilities, electrical transmission and wireless construction.

First quarter 2013 continuing operations diluted earnings per share was \$0.23 compared to \$0.14 for the first quarter of 2012, an increase of 64%. Excluding the \$3.4 million after tax debt extinguishment loss, continuing operations adjusted diluted

earnings per share, a non-GAAP measure, was \$0.27, compared to \$0.14 last year, an increase of 93%. Similarly, excluding the debt extinguishment loss, continuing operations adjusted EBITDA, was \$79 million, compared to \$49 million for the first quarter of 2012, an increase of 61%. First quarter 2013 continuing operations adjusted EBITDA margin was 8.6% compared to 6.7% last year.

Jose R. Mas, MasTec's Chief Executive Officer, commented, "MasTec had an excellent first quarter. We exceeded all of our estimates for revenue, EBITDA, net income and earnings per share. Additionally, we updated full year revenue guidance to the high end of our previous estimate, as well as increased our full year EBITDA guidance. Our outlook is strong and we expect another record year."

C. Robert Campbell, MasTec's Executive Vice President and CFO, added, "We were extremely pleased with our recent issuance of \$400 million of ten-year senior notes, with a 4.875% interest rate. We believe that the credit market recognized our increasing financial strength and business outlook. MasTec joins a relatively select number of public companies with similar credit ratings that have been able to issue 10-year notes with less than a 5% coupon rate. Our capital structure continues to improve and we currently expect to have adequate capital to fully take advantage of our numerous growth opportunities."

For our full year guidance, we currently expect revenue to be at the upper end of our prior range, at \$4.0 billion. Additionally, we are increasing our estimate for continuing operations adjusted EBITDA to \$425 million and refining our continuing operations adjusted diluted earnings per share estimate to \$1.80, inclusive of \$0.04 to \$0.05 per share of additional interest costs related to the recent upsized senior note offering. The continuing operations adjusted EBITDA margin is currently estimated at 10.6%. The Company's adjustments to full year guidance include (1) \$6-7 million in higher interest costs reflecting the increased dollar amount of senior notes outstanding due to the new bond issuance and (2) approximately \$5-7 million in higher depreciation expense due to higher capital expenditures and capital leases related to increased investment in support of anticipated large contracts in oil and gas and electrical transmission for 2013 and beyond. The Company's current guidance excludes the impact of any potential future acquisitions.

For the second quarter of 2013, the Company expects revenue of approximately \$950 million. Second quarter 2013 continuing operations EBITDA is estimated to be \$103 million with continuing operations diluted earnings per share of approximately \$0.42. Second quarter continuing operations EBITDA margin is currently estimated to be 10.8%.

As previously disclosed, the guidance above excludes the first quarter loss on extinguishment of debt. A reconciliation to GAAP measures is attached.

Management will hold a conference call to discuss these results on Friday, May 3, 2013 at 9:00 a.m. Eastern time. The call-in number for the conference call is (913) 312-0420 and the replay number is (719) 457-0820, with a pass code of 9835231. The replay will be available for 30 days. Additionally, the call will be broadcast live over the Internet and can be accessed and replayed through the Investors section of the Company's website at www.mas Tec.com.
