FORM 10-Q/A BURNUP & SIMS INC. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION JULY 31, 1993

RESULTS OF OPERATIONS

Three Months Ended July 31, 1993 (First Quarter of Fiscal 1994) vs. Three Months Ended July 31, 1992 (First Quarter of Fiscal 1993)

Revenues for the first quarter of the current year decreased slightly due primarily to the completion of certain cable television projects included in results for the three months ended July 31, 1992. Costs of revenues approximated 86% and 85% of revenues for the first quarter of fiscal 1994 and 1993,

respectively. This increase was offset by reduced depreciation and amortization (3% of revenues for the current year vs. 4% of revenues last year) resulting from the write-off of certain goodwill in the fourth quarter of fiscal 1993, the effect of asset disposals, and reduced levels of capital expenditure spending by the Company in certain prior periods.

The first quarter of fiscal 1994 includes a gain from the sale of theatre property of approximately \$2.4 million (included in other income) less income taxes of approximately \$.8 million.

Operating profit (revenues less costs and expenses excluding interest and dividend income, general corporate expenses, interest expense, income taxes, and the gain on the sale of theatre property) approximates \$1.1 million and \$.9 million for the three months ended July 31, 1993 and 1992, respectively.

The Company's effective tax rate decreased to 32% from 37% of pretax income for the periods presented due to the effect on taxable income of certain state income taxes and reduced permanent differences resulting from the fiscal 1993 goodwill write-off.

Operations of the Company are somewhat seasonal, and this has historically resulted in reduced revenues during the third quarter relative to other quarters. During winter months, inclement weather in certain areas reduces the volume and efficiency of outside service activities. Additionally, certain telephone services customers may reduce expenditures for plant construction and maintenance during the latter part of their budgetary year, which typically ends in December.

FINANCIAL CONDITION LIQUIDITY AND CAPITAL RESOURCES July 31, 1993 vs. April 30, 1993

The Company's cash position decreased to \$7.1 million at July 31, 1993 from \$9.6 million at April 30, 1993. Cash of \$1.7 million was used by operating activities (due primarily to changes in various components of working capital during the quarter), cash provided by investing activities approximated \$1.8 million and cash used in financing activities approximated \$2.5 million for the three months ended July 31, 1993.

BURNUP & SIMS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF
OPERATIONS AND FINANCIAL CONDITION
JULY 31, 1993
(CONTINUED)

FINANCIAL CONDITION
LIQUIDITY AND CAPITAL RESOURCES (continued)

Debt agreements contain, among other things, restrictions on the payment of dividends and require the maintenance of certain financial covenants. Pursuant to such covenants, the Company is currently prohibited from declaring or paying dividends.

The indenture under which the Company's 12% convertible subordinated debentures are issued requires annual payments to a sinking fund of approximately \$2,625,000 which began in fiscal 1991. The sinking fund payment which was due by November 1, 1993 was satisfied in September 1993 by the repurchase of Debentures on the open market. (See Note 4 of the Notes to Condensed Consolidated Financial Statements.)

Long-term debt decreased during the first quarter since, in accordance with the Company's term loan agreement, net proceeds of approximately \$2.9 million from the sale of theatre property which had been pledged as collateral for the term loan was applied to the final installments due under the Company's bank term loan.

The Company adopted Statement of Financial Accounting Standards No. 109 ("SFAS 109"), "Accounting for Income Taxes" effective May 1, 1993. The adoption had no impact on income for the first quarter. Prior year's financial statements have not been restated to apply the provisions of SFAS No. 109. The July 31, 1993 balance sheet includes increases in other current assets and other liabilities of \$555,000 and \$778,000, respectively, and a decrease in accrued and deferred income taxes of \$223,000 resulting from the implementation of SFAS 109.

The Company anticipates that for fiscal year 1994, operating cash requirements, capital expenditures and debt service will substantially be funded from cash flow generated by operations and dividend and interest income. Burnup & Sims has no material commitments for capital expenditures and replaces operating property as necessary. The Company does not expect to significantly change the current level of capital spending.

FORM 10-Q/A BURNUP & SIMS INC. SIGNATURES

Pursuant to the requirements of the Securities and Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
